ULTRA-MAXX™ TA

There's "super" and then there's ULTRA. The premier dump bodies and upfit you know and love from J-Craft, combined with the nitro-charged, innovative UltraBridge™ trailing axle, create a super new dump truck designed to HAUL THE MAXX.

The J-Craft Ultra-Maxx TA comes in two different models, lightweight and standard, with multiple length and side height options. Each package comes equipped with premium features designed for ease-of-use on job sites. Details like the rear fold-down ladder, aluminum asphalt agent bottle holder and the LED work light at the hinge area are a few of several user-driven features of this top-tier dump truck package!
